ROBERT F. GUY  
EASTERN AREA ENGINEER

MEMORANDUM

TO: Udell Gardiner, Pot Creek Water Commissioner  
FROM: Robert F. Guy, Area Engineer  
SUBJECT: Application 16456 (41-2128), Max B. Rasmussen  
DATE: July 8, 1981

*Re: Pot Creek*

The above mentioned application allows the diversion of 2.0 c.f.s. of water from Pot Creek after the earlier priorities have been satisfied and under the following condition: if the outlet of the Matt Warner Reservoir is closed and there is water arising in Pot Creek below the reservoir and the water will not reach the Calder # 2 reservoir it may be diverted by the above application. However, if water is being released from the Matt Warner under earlier priorities the seepage water arising in Pot Creek will become part of the flow of the water being released and no diversion will be allowed.
